Ballet/Jazz Combo

This class is a combination of ballet and jazz exploration at an introductory level. Emphasis is placed on coordination, rhythms, and the development of confidence. Students also learn basic ballet and jazz positions, steps, and vocabulary. It is an excellent class for the dancer who enjoys a mixture of dance genres.

Jazz/Hip Hop

Students will be taught basic jazz and hip-hop technique, skills and steps, plus body isolations, combinations, leaps and turns. This class would be great for anyone with a passion to move. Class is accompanied by more contemporary, popular music.
